MARRIAGES NEED RECOVERY, TOO!

All marriages have difficulties but recovering marriages have special issues surrounding trust, feelings, resentments and isolation. Recovery Marriage Encounter is a program which helps 12 step couples build communication skills vital to resolving these issues. Our one-day experience offers focused communication where couples learn to talk to each other rather than at each other. Sessions are lead by couples working 12 step programs, usually AA and Al-Anon members.

This introduction to communication through dialog offers tools designed to improve your relationship. Couples continue this process at monthly meetings where they practice these principles with experienced couples, to enhance growth and understanding.
